Tourism

Carney Park is an excellent "base of operations" for touring central and southern Italy. Many families come to the park to rent a campsite or a cabin. Then, they plan day trips to one or more of the several extraordinary sights that surround Naples. Guests of the Park often visit Rome, Pompeii, and the Amalfi Coast or they come to just soak up the sun and relax. We encourage guests to call ITT to reserve day trips or to get information on do-it yourself tours of the local sights. ITT offers pick up and drop-off for their day trips right from the park. No matter what you plan, please remember that if you bring your dog, the dog must be micro chipped to enter Carney Park. While staying in the park, your dog must be on a leash at all times.

If golf is your game, there is a beautiful and challenging 9-hole golf course located inside Carney Park, too. The course and the driving range are open year-round. The full service Pro shop offers club rentals and sales, cart rentals and there is a PGA Golf Pro on staff to help you improve your game.

The Teen Center at Carney Park is the perfect place for visiting teens, to meet "the locals" and hang out without leaving the park. If that's not enough, the Carney Park pool is practically a water park. There are 7 slides, a kiddie pool, tiki bar and plenty of room to swim, get wet and splash around!

Carney Park also has two restaurants. The Fairways, located next to the Golf Pro Shop, is a full service dining facility that offers breakfast, lunch and dinner. It's open year-round. The second restaurant is the "Crater Cantina." The cantina is more like a "fresh fast food" place. It offers Noble Roman's pizzeria products, hamburgers, fries and a wide variety of beverages. It's open during the summer months only, and features free entertainment on its massive stone patio during most weekends.
