## 6. SVNAH-RN Hospice Case Manager - Emeryville, Oakland, CA

Sutter VNA & Hospice is one of the largest, not-for-profit home health and hospice agencies in Northern California. What began in 1906 as the selfless act of volunteer nurses caring for children injured in the 1906 earthquake has evolved into today's Sutter VNA & Hospice. Sutter VNA & Hospice enables patients to recover or live with illness in the comfort and dignity of home, surrounded by the people and things they love. Our home care programs focus on helping patients by administering care and teaching patients to become more independent in managing their illness. Our hospice program cares for the patient and the family, focusing on care, not cure, maximizing the patient's comfort and dignity and also addressing the emotional and spiritual needs that arise when a patient is dying. Sutter VNA & Hospice is accredited by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO).

### Requirements:

Graduate of an accredited School of Nursing

Current BCLS/CPR certification required

Participation in a specialized training program for Hospice or other coursework in death and dying hospice care preferred

A minimum of two years of experience in an acute-care setting as an RN

Experience in Home Health or Hospice preferred

Access to a reliable vehicle, valid CA Driver license and proof of current

auto insurance required

Sutter VNA & Hospice is one of Northern California's largest not-for-profit, community based home care and hospice agencies, providing high quality health care in patients' homes. Services include visiting nurses, rehabilitation therapists, medical social workers; home infusion therapy; home health aides, hospice care; bereavement programs; and community health clinics. Sutter VNA & Hospice serves ten Northern California counties with local offices in Emeryville, Concord, San Leandro, San Mateo, Santa Rosa, Sacramento, Tracy, and Roseville, and manages home health and hospice services in Marin County and San Francisco. The Case Manager is an experienced Registered Nurse who provides skilled palliative and end of life care in the community setting. The Case Manager facilitates the development of a collaborative interdisciplinary plan and ensures the overall coordination and medical management of hospice services for patients and their significant others.

7. MGH-Lead Analyst, Sutter Health, San Francisco, CA

Marin General Hospital, a not-for-profit facility, opened in May 1952. It is the largest acute care hospital in Marin County and is accredited by the Joint Commission on Accreditation of Healthcare Organizations. Marin General Hospital is licensed for 235 acute care beds and works in close partnership with Novato Community Hospital to provide for the healthcare needs of 175,000 residents of Marin County. Marin General Hospital affiliated with Sutter Health in 1996.

Requirements:

- High school diploma
- Minimum of three year's hospital experience in record preparation and analysis
- Experience in lead capacity highly desirable
- Ability to work well in a fast-paced, demanding environment
- Proficiency in information systems, including database, spreadsheet and word processing functions
- Excellent written and verbal communication skills
- Ability to prioritize and effectively manage projects and duties simultaneously, meeting deadlines

The largest acute care hospital in Marin County with 235 licensed beds, Marin General Hospital works in close partnership with Novato Community Hospital to provide for the health care needs of 175,000 residents of Marin County. Primary and secondary levels of care include a basic emergency department, neonatal intensive care, pediatrics, a family birthing center, home care, adult psychiatric units and a cardiac catheterization laboratory. The Marin Cancer Institute, Marin Heart Institute and a Shared Care Unit, which provides family-centered care for patients with cancer, diabetes, or AIDS, offer extended health care services to the community. The Lead Analyst coordinates the operations and functions of the combined prep/assembly/analysis section in order to deliver quality services that are responsive to both internal and external customers. Oversees the workflow of the activities of the Prep/Assembly/Analysis staff. Act as a resource and problem solver

8. CTI Engineer, PROSOFT Engineering, Virginia Beach, VA - to \$80,000

PROSOFT is a leading communications and information engineering, and

training technologies company that offers top salaries and benefits, and opportunities for professional growth and advancement.

PROSOFT currently has a need for a CTI Engineer, Job #6103-0303

NOTE: No security clearance is required for this position.

Immediate Requirement:

- Engineer will be responsible for design and engineering of global data and telecommunications networks.
- Conceive new data and telecom services, including vendor selection and negotiation.
- Will help guide strategic direction of design team while at the same time have an understanding of the technical details of telephony networking.
- Will also perform site surveys and document findings in a technical report.
- This position requires a deep knowledge of all aspects of IP networks, including LAN/WAN, Internet connectivity, and VPN. Must be comfortable navigating the telecommunications carrier landscape including local and long distance service.
- Engineer must be process focused ensuring that all projects are rigorously engineered, meeting the client's business requirements, and are supportable by the client's National Concept of Operations as it applies to their virtual call center environment.
- Above all we are seeking a fellow team member who can adapt to change on a regular basis, who is customer and team focused.
- Must have a professional outlook to achieve individual, team, and company goals.

Mandatory experience and skills required are:

- Experience working with various business units to develop voice solutions and sizing PBX capacity.
- Experience writing technical reports.
- Proven (advanced) understanding of telephony hardware/software for PBX systems, Key systems, voicemail systems (for analog and digital systems), IP telephony, IVR, ACD, and Call Center systems
- Understanding of Data TCP/IP, Networking of converged networks (data and telephony products), Routing, Switching, ATM, Frame Relay, X.25, ISDN etc.
- Bachelors' degree in Engineering, Computer Science or other technical discipline; degree may be substituted for comparable experience.

Preferred skills include:

- Ten (10) years experience managing mission critical IVR/ASR and ACD systems.
- Experience dealing with telecommunications providers (i.e., Sprint, Qwest).
- Understanding of supported Avaya-specific telephony systems through G3r hardware and v11 software, installations and networking.
- Understanding of supported Nortel-specific telephony systems through Option 61C hardware and v2.54 software, installations and networking.
- Understanding of supported Tadiran-specific telephony systems for Coral CallMaster hardware and Coral FlexCT software, installations and networking.
- Experience with field operations.
